

Do It All with the Recycling Bill Changer

Rowe's Model 400 comes in dual validator and dual hopper front and rear load models to help customize bill changers to meet operators' needs. These high security, economically-priced changers offer features only found in Rowe's top-of-the-line Bill Breaker models. Among other convenient features and options operators can select the USA Technologies ePort credit card reader, which accepts all major credit cards and dispenses tokens, while also having a second back up bill validator. The Model 400 can connect to a remote computer for audit and help code reporting. This line of bill changers truly does it all.
