- **Maximize Revenue**
- **Optimize Efficiency**
- **Easy to Use**

DISCOVER ULTIMATE LAUNDRY MANAGEMENT WITH THE GALAXY™ 600 CONTROL.

Maximize Revenue

- **Multi-Level Vend Pricing** allows you to charge extra for warm or hot water, resulting in improved profitability.
- **Cycle Modifiers** offer customers additional options and flexibility for their wash needs while bringing laundromat owners another powerful, revenue-enhancing feature.
- **Time-of-Day Pricing** enables price variations throughout the day, helping you manage peak laundromat customer usage and compete for new customers.
- **24 Customizable Cycle Selections** provide customers with options to optimize vended laundry machine wash results for various loads while creating added revenue opportunities for laundromat owners.

Optimize Efficiency

- **200 G-Force Extraction** provides maximum water removal, shorter dry times, lower utility bills and satisfied customers.
- **24 Cycle Combinations** optimize washing, giving customers options and ensuring the best possible wash per load type.
- **30 Programmable Water Levels** can be adjusted by segment and customer feedback for the most economical water setting, delivering the best wash results at the lowest expense.
- **Patented Water Guardian Leak Protection and Slow Drain Detection** monitor leaks for both commercial washing machine drain and fill valves, eliminating wasted water and resources while also reducing preventative maintenance.
- **Computer Connectivity** allows the laundromat owner to communicate and program multiple vended laundry machines quickly and easily from your pc or laptop.
- **Payment System Open Architecture** allows for easy integration with your aftermarket payment system.

Easy to Use

- **Multilingual Operating Instructions** increase laundromat customer acceptance and remove the expense of additional language signage.
- **Easily Accessible Service-Related Audit Data** helps you manage your commercial laundry equipment costs and ensure longevity.
- **Service Diagnostic Troubleshooting** lets you run factory tests, diagnose problems and quickly understand issues so they can be corrected.
- **Computer Connectivity** allows you to communicate and program multiple machines quickly and easily from your pc or laptop.
